Winning design team for shading element design for a west facing eight-story full height glass atrium in a commercial building.
- Army Corps of Engineers Value Engineering Workshop #83013
Team Leader with the largest cost savings value engineering design of any of the Workshop teams.
- Design Award for Centennial YMCA - Atlanta, Georgia

EXPERIENCE

Tim serves as a Principal and Vice President of HESM&A. He has been with HESM&A for 14 years. He is directly responsible for management and direction for our Commissioning group. He has over 30 years of experience in the mechanical engineering field. Tim supervises and directs the commissioning activities for the commissioning group along with the commissioning aspects for coordination with design activities from initial design concepts to the final design with adherence to applicable codes, design standards, and owner project requirements. He also coordinates the commissioning scope of work for projects with all other commissioning team members and disciplines in a pro-active team-oriented manner, stressing the prompt exchange of information required for an efficient commissioning process. Tim assisted the Georgia State Financing and Investment Commission (GSFIC) in the recent update to the Georgia State Building Commissioning Guide and the March 2010 GSFIC Commissioning Guide.
